Mounts

1851155	Paramount ME II Observatory Mount	15.400,00	12.941,18
---------	--	------------------	-----------

The new Software Bisque ME II mount is designed to cover any astro-application with utmost professionalism from any place on Earth.

The ME II can carry heaviest payloads and allows perfect remote Internet control via PC/MAC

- Maximum 7 arcseconds „Peak-to-Peak“ periodic error before PEC
- 30 arcsecond or better all sky pointing accuracy with T-Point und Super Model™
- Two port USB 2.0 hub on the Instrument Panel
- Completely redesigned Control System MKS 5000 featuring 2“ USB computer to mount interface
- Calibrated Polar-Alignment-Adjustments
- Paramount 3“ VersaPlate
- Belt-driven gears offer virtually zero backlash
- Unibody mount design weights 38kg (84 lb)
- 109kg (240 lb) total instrument capacity (218kg / 480 lb total capacity)
- two 14 kg Counterweights
- Ample room to add through the mount cabling
- Power supply and PC to mount cabling included
- Clutchless design maintains T-Point assisted pointing accuracy
- All electronics and wiring are enclosed within the mount (power supply is external)
- Includes TheSkyX Pro, Tpoint Ad On and the Camera Ad On for MAC and Windows

Paramount ME II alternatively with Encoder

1851156	Paramount ME II with Encoder in RA (ex factory)	Prices currently not available	
1851157	Paramount ME II with Encoder in RA /DEC (ex factory)	Prices currently not available	

Software Bisque offers to mount their new on axis encoders into ME II mounts. This cannot be done at the site. The ME III mount must return to Software Bisques new premises in USA. Prices quoted do not include return shipment cost for two ways transport, customs duty for the encoder value and labor cost as well as handling charges in USA. Please inquire for an offer if you are interested in this substantial upgrade.

1851165	Paramount MX+ Robotic Telescope System	11.600,00	9.747,90
---------	---	------------------	----------

IMPROVED VERSION OF FORMER MX-Mount

Artistry, vision and all the performance of a professional grade mount.

Designed to make observatory quality astronomy – field portable

- Two port USB 2.0 hub on the Instrument Panel
- **control system of 4th generation, featuring USB 2.0 computer to mount interface**
- Calibrated polar alignment adjustments
- 2pc Stainless steel counterweights and stainless steel Counterweight bar
- **45kg total instrument capacity**
- Unibody mount design weights 23kg
- Maximum 7 arcseconds peak-to-peak periodic error before PEC
- Includes versatile equipment mounting plate that can accept virtually any equipment
- Includes power supply and cabling
- Belt driven gears result in virtually zero backlash
- 30 arcsecond or better all sky pointing using T-Point
- Clutchless design maintains your „T-Point assisted“ pointing accuracy
- All electronics and wiring inside the mount, with space to add additional cabling „through the mount“
