### Paramount origin in an Equatorial Fork Design

- Mount disassembles into five separate components, each weighing less than 41kg
- Sub-0.1 arcsecond resolution absolute on-axis encoders ensure optimal performance
- Integrated azimuth and elevation polar alignment adjustments
- Fourth-generation control system featuring USB 2.0 computer to mount interface
- Belt-driven gears with spring-loaded worm interface results in virtually zero backlash
- Ample space for additional through the mount and fork-routed cabling
- All standard electronics and through the mount wiring are housed inside the mount
- Power supply and PC to mount cabling included
- The SkyX Pro with Add Ons feature ProTrack™, Direct Guide™, Super Model™, All Sky Image Link™, Closed Loop Slews, and more!

1851157	<b>Paramount ME II with Encoder in RA /DEC (ex factory)</b> Software Bisque offers to mount their new on axis encoders into ME II mounts. This cannot be done at the site. The ME III mount must return to Software Bisques new premises in USA. Prices quoted do not include return shipment cost for two ways transport,customs duty for the encoder value and labor cost as well as handling charges in USA. Please inquire for an offer if you are interested in this substantial upgrade.	<b>22.800,00</b>	19.159,66

1851165	<b>Paramount MX+ Robotic Telescope System</b> <b>IMPROVED VERSION OF FORMER MX-Mount</b>	<b>11.300,00</b>	9.495,80
---------	---	------------------	----------

Artistry, vision and all the performance of a professional grade mount.

Designed to make observatory quality astronomy – field portable

- Two port USB 2.0 hub on the Instrument Panel
- **control system of 4th generation, featuring USB 2.0 computer to mount interface**
- Calibrated polar alignment adjustments
- 2pc Stainless steel counterweights and stainless steel Counterweight bar
- **45kg total instrument capacity**
- Unibody mount design weights 23kg
- Maximum 7 arcseconds peak-to-peak periodic error before PEC
- Includes versatile equipment mounting plate that can accept virtually any equipment
- Includes power supply and cabling
- Belt-driven gears result in virtually zero backlash
- 30 arcsecond or better all sky pointing using T-Point
- Clutchless design maintains your „T-Point assisted“ pointing accuracy
- All electronics and wiring inside the mount, with space to add additional cabling „through the mount“

1851170	<b>Paramount MyT Robotic Telescope System</b> <b>Portable mount with characteristics of the established ME II and MX+ mounts</b>	<b>7.500,00</b>	6.302,52
---------	---	-----------------	----------

Developed for high performance and stability.

- Two port USB 2.0 hub on the Instrument Panel
- 4th generation control system, featuring USB 2.0 computer to mount interface
- Calibrated polar alignment adjustments
- 1pc Stainless steel counterweight and stainless steel Counterweight bar
- 23kg total instrument capacity
- Unibody mount design weights 15kg
- Maximum 10 arcseconds peak-to-peak periodic error before PEC
- Includes versatile equipment mounting plate that can accept virtually any equipment
- Includes 80W (48 V / 1.7 A) power supply and cabling
- Belt-driven gears result in virtually zero backlash
- 30 arcsecond or better all sky pointing using T-Point
- Clutchless design maintains your „T-Point assisted“ pointing accuracy
- All electronics and wiring inside the mount, with space to add additional cabling „through the mount“
